Assignment 0123 Feedback

Proficiency *1a* can only go as high as | in this assignment because, well, we've only just begun. Future assignments will build you up to a + eventually.

1a — Looks like you're well on your way to a decent level of command line proficiency. Mmmm, ScrollSpy :) As for your DIY repository, as it turns out the information you gave me is incomplete; you said you put it in `~/repos` but that's not enough information for me to issue a clone command. I'll give you the benefit of the doubt that all is well, but round it out please. (|)

4d — No problems with looking up information and restating them. (+)

4e — Version control frequency and messages are appropriate for the work done. (+)

4f — Assignment done on time (pending knowledge of full path for DIY repository). (+)
